**Fifty-Third Year**

---

THE COLLEGE of the Immaculate Conception, conducted by the Fathers of the Society of Jesus, was founded in December 1847; and in March, 1856, was endowed by the Legislature of the State of Louisiana, with the full powers and privileges of a University.

The plan of studies embraces the Doctrines and Evidences of the Catholic Religion, Logic, Metaphysics, Ethics, Astronomy, Natural Philosophy, Chemistry, Mathematics, Rhetoric, Composition, Elocution, History, Geography, Arithmetic, Penmanship, Book-keeping, Stenography, Typewriting, the Latin, Greek, English, French, German and Spanish Languages. The arrangement of these studies is as follows:

I.

**Post-Graduate Course**

The Post-Graduate Course of Lectures was introduced in the month of November, 1886, and it has since been continued with good results.

Sociology, Natural and International Law, Political Economy and General Physics are the subject-matter of the Lectures.

The Annual Course opens on the first Monday of October and closes at the end of April. The general subject-matter will be distributed over several years, so as to vary the treatises of those who may desire to attend for more than one term.

At the termination of the complete Course, such members of the class as have given satisfaction by regular attendance may apply for the Degree of Bachelor of Philosophy, which will be granted on condition that they pass an examination on Theses, to be selected from the matter developed during the Course, and present an original and creditable paper on a given subject.

The Degree of **A. M.** will be bestowed after one term of Post-Graduate Lectures, faithfully and studiously attended, on those who have previously received the Degree of **A. B.**

Graduates of the College, or of any College of the same grade, students of Law or Medicine, and gentlemen of literary or scientific culture, will be admitted to the above Course.

## II.

### Classical Course

The Classical Course, which leads to the Degree of Bachelor of Arts, is designed to impart a thorough, liberal education. In the accomplishment of this purpose, the Ancient Classics hold the first place, because some acquaintance with them is essential to the study of modern literature and to sound scholarship. Besides Latin, Greek and English, it embraces Religious Instruction, Mental and Moral Philosophy, Astronomy and Mathematics, History, Literature, Book-Keeping, and the Natural Sciences. It has been found by long experience that this is the only Course that affords unsurpassed mental discipline, forms a correct taste, and prepares the student to excel in any pursuit, whether professional or commercial.

## III.

### Commercial Course

This Course offers the means of acquiring a good English or Commercial education. It embraces Book-Keeping, a thorough study of Arithmetic, Algebra, Grammar, Style, practice in Composition, English, and Religious Instruction. At the

end of the Course, a Commercial Certificate is awarded to those who pass a satisfactory examination. Moreover, the Degree of Bachelor of Science will be conferred upon those who successfully devote two extra years to the study of Literature, Philosophy and the Natural Sciences.

#### IV.

### Preparatory Department

This Department comprises the First and Second Preparatory and Class of Rudiments. Its object is to introduce the younger pupils to the study of the first principles of Grammar, chiefly by class-drill; to form them to habits of attention and application, and thus prepare them for one of the regular Courses of Instruction.

Requirements for entering this Department are:

FIRST.—The applicant must know how to read, write and spell creditably.

SECOND.—He should know Arithmetic as far as Long Division, included.

### Military Department

The students form a Cadet Battalion known as the Jesuit College Cadet Corps.

The Cadets enrolled in the Battalions contract no obligation to be called upon for military service, either by the State or the General Government.

The officers are selected from the Cadets most distinguished for soldierly bearing, good conduct and proficiency in drill and tactics.

The uniform adopted is the regulation West Point fatigue uniform. It can be worn at all times so that it is not necessary to be provided with two outfits of clothing.

The instruction in the Department is both practical and theoretical.

The practical instruction, which all students must attend is two hours per week and consists principally of the instruction prescribed by the Infantry Drill Regulations of the U. S. Army.

The theoretical instruction is limited to the students of the graduating class. It consists of a short course of lectures by the Military Professor on Discipline, Military Hygiene, Military History and kindred subjects.

The time given to the Military Department will not in any way interfere with the usual college curriculum. \*(1).

\*1. At the recent enthusiastic reception tendered President McKinley by the City of New Orleans, the Jesuit College cadets appeared to very great advantage and were singularly honored by being requested to act as a special guard of honor to His Excellency the President of the United States on the occasion of his visit to the historic Cabildo.

## Religious Training

The College authorities are convinced that, without Religion, there can be no education, in the true sense of the word, that is to say, no complete and harmonious development of the intellect and heart of man. They hold, furthermore, that religious truth, being definite and certain, like any and every other truth, is as susceptible of teaching as the science of language, or the theory of numbers. Hence, the Catechism of Christian Doctrine is a text-book in every class, and lectures on it are given twice a week. In all the classes the day's work begins and ends with prayer. The Catholic Religion alone is taught, but non-Catholics will also be welcome and their religious opinions studiously respected. Catholic students go to Confession the third Saturday of each month, then on the following Sunday, in the Church annexed to the College, hear Mass and receive Holy Communion.

### ADMISSION

EVERY Student who applies for admission must furnish testimonials of good moral character, unless he be personally known to some member of the faculty; and should he come from another institution, he will be required to bring satisfactory evidence of blameless conduct. He is then examined by the Prefect of Studies, and assigned to that class for which his previous attainments have qualified him.

The session is divided into two terms. The first begins on the first Monday in September, the second on the first of February and closes towards the end of June.

### LEAVING THE COLLEGE

Parents who wish to withdraw their sons before the end of the session are respectfully requested to give due notice of their intention to the Vice-President. Many inconveniences will thus be avoided, and order secured. Should any student leave of his own accord, or be withdrawn without such notice, or without giving satisfactory reasons, he will not be re-admitted. On leaving, students should take their books, etc., with them, as the College is not responsible for any articles left behind.

### EXAMINATIONS

Two examinations are held every year, one at the end of each term.

## PROMOTIONS

Though promotions may take place any time during the year, whenever warranted by the progress of the student, the usual time is the beginning of the school year. These promotions depend partly on the final examinations, but mainly on the general class standing during the preceding year. A student of ordinary talent, and steady application during the entire session, may be easily promoted, provided he returns promptly when classes are resumed. Should he not be promoted, it is usually a sign that he did not attend regularly during the entire session, or that he did not devote sufficient time daily to home study. Should a student fail in the final examination, he will be offered the privilege of passing a private examination during the vacation, if his yearly average warrants the concession.

## COMPETITIONS

Competitive exercises are given monthly in the various branches, the results being read publicly in the presence of the faculty and students, and the leaders rewarded for their proficiency.

To lend interest to these announcements, as well as to accustom the students to appear in public, the proceedings are varied with declamations, original speeches, vocal and instrumental music.

Testimonials of good conduct and diligence are given regularly to deserving students. Parents should require these evidences of good behavior, and if not forthcoming, take an early opportunity of visiting the Vice-President, to inquire why their sons fail to receive merit cards.

## MODERN LANGUAGES

The study of French, Spanish and German is optional and entails no extra charge.

## STENOGRAPHY AND TYPEWRITING

The study of these branches is optional.

## Fees and Expenses

---

As the College is not endowed, it is entirely dependent for its support on the fees paid for tuition.

Tuition per month, payable in advance.....	\$6 00
Use of Chemicals, etc., <i>per annum</i> .....	10 00
Classical Diploma .....	10 00
Commercial Certificate.....	5 00
Stenography and Typewriting, per annum.....	10 00

N. B.—No deduction is made for any absence less than half a month.

Books and stationery are furnished by the College at current prices.

## Special Regulations

THE ATTENTION of students is specially directed to the important duty of *home study*. Since recitations in the various branches fill up almost all the school hours, it is very difficult to advance, and utterly impossible to accomplish the work laid out for each year, unless the student devotes at least *three hours daily* to class study at home. Parents are exhorted to insist on this indispensable duty, and to inform the faculty, should their sons neglect it.

After home study the next duty which should claim the attention of students and the vigilance of parents is punctuality.

Severe illness or absence from the city is, generally speaking, the only excuse admissible for staying away. Whenever parents keep their sons at home, on account of sickness or for any other good reason, they are requested to send a postal card to the Vice-President. Frequent absence so rapidly lowers a student's class standing, that the faculty prefer he should be withdrawn entirely.

Owing, moreover, to the serious inconvenience resulting to professors and students from breaking in on class-hours by withdrawal before the end of the afternoon Attendance the whole day. class, permission to leave College will not be given, unless for reasons deemed imperative by the Vice-President.

If parents do not insist on home study and punctual attendance, they need not be astonished if their sons remain a second year in the same class, or, perhaps, be refused re-admission.

Along with moral and mental training, the faculty lay great stress on the development of the manners of perfect gentlemen, and consider the rules of politeness a very important part of the course of studies. Whatever, therefore, is contrary to good breeding, is out of place in College. Consequently no boisterous conduct or rough play is tolerated

**Politeness.** on the premises, and silence is strictly enjoined in the class-rooms, and on the corridors or stairways leading thereto. Any ungentlemanly conduct among the students themselves, any disrespect or insubordination to a professor or officer of the College, will be visited with severe punishment, and even with dismissal should the gravity of the offense require such a penalty.

For faults of ordinary occurrence, such as tardy arrival, failure in exercises or recitations, slight violations of rules; detention after class, or the task of writing or memorizing some lines from an author, is deemed a sufficient penalty.

For faults committed outside of the premises, the officers of the College are by no means responsible, as students **Penalties.** cease, then, to be under their jurisdiction; still, should any serious charge be fairly substantiated, the guilty will be punished according to the gravity of the offense.

Damages to the College property will be repaired at the expense of the offender.

The use of profane language or anything bordering on immorality, will subject the offender to immediate expulsion.

Once a month the marks of all the students are read out **Monthly** in the classes. These marks are the record of **Marks.** daily lessons, exercises, conduct and monthly competitions. 100 is the maximum. A student receiving over 89, merits a testimonial of the first grade, one receiving from 80 to 89, merits one of the second grade.

A report of these marks is sent by mail to the home of every student to be signed by his parents or guardian. As **Monthly** these reports indicate exactly the student's class **Reports.** standing, the College requests that they be very carefully examined, and afterwards returned to the Professor. No student is allowed to open his report.

The College is open at 8 A. M. All are obliged to be present **Tardiness** at 8:45 A. M., at which hour they go to church for morning prayer. Class begins precisely at 9 o'clock. A student arriving after the 8:45 o'clock bell has rung, must

report at once to the Vice-President, and cannot enter class without a note from him.

Written excuses for lessons or exercises fall under the same rule as notes for absence; a student not prepared to recite is considered as morally absent, and is marked accordingly. Such excuses are to be handed to the Prefect of Studies, who will decide whether, in some special instance, they are to be admitted.

No student, unless for serious reasons, will be allowed to take his lunch outside the College limits. Parents are requested not to ask this permission if it can be possibly avoided.

Thursday is the weekly holiday, but should an extraordinary holiday fall on Tuesday, Wednesday, or Friday, classes may be continued on Thursday, as usual. All are expected to be clean and neat in person and apparel.

## Mental Philosophy

---

### DIALECTICS

Logic; its definition and division.

The nature of simple apprehension; ideas; phantasms.

Judgments, terms and propositions.

Reasoning; Laws of the Syllogism.

Demonstration. Species of demonstrative arguments.

Sophisms.

Method, Science, Definition, Division, Analysis and Synthesis.

### CRITICAL LOGIC

A simple apprehension as such, cannot be false.

The doctrine of Universal Scepticism is absurd.

Descartes' 'System of Methodic Doubt' is self-contradictory.

Immediate analytical judgments can never be false.

A conclusion logically drawn from true premises cannot be false.

Our external senses, acting under proper conditions, are reliable in their perception of outward objects.

The testimony of human witnesses, under proper conditions, can be relied upon to give perfect certainty.

The ultimate and universal criterion of certainty is the evidence of the objective truth.

## ONTOLOGY

The term 'Being' as applied to God and creatures is analogous.  
The internal possibility of things does not depend formally  
on the power nor on the will of God.

The internal possibility of things depends formally on the  
intellect and fundamentally on the essence of God.

All action is directed to some end or purpose.

It is not impossible for God to maintain certain accidents  
separated from the substances in which they must naturally  
inhere.

## COSMOLOGY

Pantheism and Agnosticism are systems destructive of all  
religion, morality and human society.

The world was created.

The world is not absolutely but relatively perfect.

The ultimate or primary end of the world is God's extrinsic  
glory.

Miracles are possible.

There are in matter two substantial principles, viz: prime  
matter and substantial form; the former is the principle  
of extension, the latter that of specific action.

## PSYCHOLOGY

Though endowed with sensitive perception and instinct, yet  
brute animals can never attain to intellectual knowledge.

The human will is free not only from coercion, but from all  
necessary action.

The human soul is essentially a simple being.

The human soul is a spiritual substance.

The human soul is immortal.

## NATURAL THEOLOGY

There exists a necessary or self-existent being, the intelligent cause of the world and the Supreme Lawgiver to whom all men are responsible for their moral conduct.

God is infinitely perfect.

There can be only one God.

God is intrinsically immutable.

God knows all things possible, actual and conditional.

God is free in all His external acts.

God is omnipotent.

Every event is directed by God's Providence.

## ETHICS

God is the only object that can make man perfectly happy.

Man is accountable to God for his human acts.

Men are obliged to render public worship to God.

Suicide is never allowed.

A lie is intrinsically evil.

Duelling is opposed to the natural law.

Under certain circumstances, it is lawful to kill an unjust aggressor.

Civil society has the right to inflict capital punishment.

## PHYSICS

1. Transmission of pressure in liquids. Pascal's law. Hydrostatic press. Downward, upward and lateral pressure. Equilibrium of liquids in communicating vessels. Archimedes' principle;—its application in determining the specific gravity of solids.
2. Properties of gases. The atmosphere and its pressure. Barometers. Mariotte's Law. The Air-pump. Lifting and force pumps. Siphon.
3. Production of statical electricity. Electroscope. Electrostatic induction. Electrophorus. Plate machine.
4. Simple Voltaic cell. Its defects. Daniell's and gravity cell. Leclanche cell. Electrical units. Ohm's law. Galvanometers.
5. Magnets—their properties and laws. Methods of magnetization.
6. Electromagnetic induction. Ruhmkorff's coil. Dynamo. Morse's Telegraph. Telephone.
7. Wave motion. Wave period. Wave length. Amplitude. Production and propagation of sound. Sound Waves. Intensity, pitch and timbre of musical sounds. Reinforcement and interference of sound.
8. Ordinary thermometers. Expansion of bodies by heat. Rate of gaseous expansion. Relation of temperature and volume of gases. Liquefaction and vaporization. Latent heat.
9. Velocity of light. Laws of reflection and refraction of light. Construction of images in plane and concave mirrors, and in convex lenses.

## MECHANICS

1. Motion and rest. Kinds of motion. Laws of uniform, and uniformly accelerated motion. Composition and resolution of uniform velocities.
2. Mass. Density. Volume. Force. Kinds of force. Newton's laws of motion. Measurement of force.
3. Mechanical work and its measurement. Energy. Various forms of energy. Transformation and conservation of energy.
4. Composition and resolution of impulsive forces acting in one plane. Centre of gravity of plane bodies. Equilibrium and stability of bodies.
5. Simple Machines. General laws of machines. Lever. Wheel and Axle. Pulleys.

## ASTRONOMY

1. The Celestial Sphere. Its relation to the earth. Coördinates of a Star. Altitude and Azimuth, Right Ascension, Declination and N. P. distance of a star.
2. Diurnal motion of the earth. Sidereal, true and mean solar time. Local time.
3. Transit Instrument and Meridian Circle. Their use in determining the coördinates of a star.
4. Apparent motions of the planets. Their real motions. Copernican system. Kepler's laws. Universal Gravitation.
5. Solar system. Sun's Dimensions and Constitution. Description of the Planets. The stellar universe. Distances and constitution of stars.

# The Apostleship of Prayer

IN LEAGUE WITH THE SACRED HEART.

---

The Apostleship of Prayer is a League of zeal and prayer in union with the Sacred Heart of Jesus Christ. Its object is to spread devotion to the Sacred Heart ; to promote the interests for which that Sacred Heart is ever pleading in our Tabernacles and on our Altars,—the salvation of souls and the triumph of the church ; and to make reparation for sin.

CHURCH AND COLLEGE OF IMMACULATE CONCEPTION  
IN 1857.

## To the Friends and Patrons of the College

---

The President and Faculty take pleasure in presenting to the friends and patrons of the College several views showing the gradual progress and development of the College from the humble house of 1848 to the present imposing structure of 1901.

A few words taken from the annals of the College may prove of interest to the many students who have been educated within its walls.

The Jesuits came for the second time to New Orleans, La., on February the twenty-second, 1836.

In 1848 after many trials and disappointments Father Maisonnabe bought a piece of ground (133 x 124) at the corner of Common and Baronne streets, for the sum of \$20,000 and shortly after began the construction of the small building shown on the accompanying picture at the right of the Church. The lower floor served as a temporary chapel to which the eloquent Jesuit Father Blackney drew large crowds.

Owing to a severe outbreak of cholera the new College did not open its doors till the first of February 1849

The present magnificent Church was commenced in 1851 by the learned Jesuit Father Cambiaso who was both its architect and its builder. The work however was much delayed by the epidemics of yellow fever.

The Church though in an incomplete condition was opened for divine worship on August the 15th, 1857. The first solemn High Mass was celebrated on the Feast of the Immaculate Conception, the 8th of December 1857 by Rev. Father Curioz, the venerable octogenarian still laboring in the Church whose glorious career he has witnessed for nearly half a century.

On. March the 17th, 1882 the building of '48 was removed to make room for a more spacious one which served as a nucleus to the vast edifice just completed.

## Acknowledgments.

---

The President and Faculty wish to express publicly and in an especial manner the gratitude with which the College recalls and cherishes the memory of its past and present benefactors. The Messrs. Bernard, Patrick and Hugh McCloskey have at their own expense erected the Superb College Annex now occupied by the Primary Department. The Thomas J. Semmes Memorial Chapel is the Munificent Gift of a noble wife fittingly perpetuating the memory of her illustrious husband in the College he loved so well.

The College also desires to express its gratitude to Mrs. Jas. Denègre, Mr. J. B. Levert, Mr. Nicholas Burke, Mrs. N. Hanton Burke, Mr. Lawrence Fabacher, Mr. Joseph Burguières, Mr. Francis B. Johnson, Mrs. Andrews Johnson, Mr. James Sinnott and other true friends who generously contributed to the building fund.

The College hopes that these noble examples will arouse in others, blessed with ample fortune, the desire to emulate the above-named donors and to advance the cause of Christian education by assisting in the construction of the contemplated Science Hall and other buildings forming an essential feature in the original plan.

The President and Faculty express their grateful acknowledgment also for various donations to the College Library and Museum for reports of various departments of the U. S. Government and of the Smithsonian Institute, and for two scholarships in the Law Department of Georgetown University, Washington, D. C., and for two scholarships in the College of Technology of Tulane University of Louisiana.
